PROFESSIONAL SUMMARY

Security+ certified Cybersecurity graduate seeking a Tier 1 SOC Analyst role. Gained foundational experience in SIEM monitoring and vulnerability assessment during a cybersecurity internship at Zain KSA. Knowledgeable in Saudi cybersecurity frameworks (NCA/CCC) and currently advancing technical skills through CCNA and eJPT certifications.

TECHNICAL SKILLS

- Security Operations: SIEM Monitoring, Incident Response, SOC Ticketing, Vulnerability Assessment (VA).
- Compliance & Governance: NCA Frameworks (ECC/CCC), Internal Auditing, Risk Management.
- Cloud & Networking: Alibaba Cloud (IaaS, SaaS), Wireshark, Nmap, TCP/IP.
- Systems: Linux (Kali, Ubuntu, Debian, CentOS), Windows Server (2000-11).
- Programming: Python, SQL, Java, JavaScript, PHP, C, C#, Kotlin.

PROFESSIONAL EXPERIENCE

Zain KSA | *Cybersecurity Specialist (Intern)* | *Riyadh, KSA* **September 2024 – March 2025**

- **SOC Operations:** Monitored security logs, performed advanced searches, and managed SOC tickets.
- **Vulnerability Management:** Conducted Vulnerability Assessments (VA) and generated detailed reports to mitigate organizational risk.
- **Audit Leadership:** Acted as Auditing Champion for internal audits, ensuring 100% alignment with NCA (ECC/CCC) frameworks.
- **Cloud Security:** Managed and secured Alibaba Cloud environments utilizing IaaS and SaaS configurations.

PROJECTS

Bank Shield: AI-Driven Pre-Login Fraud & SIM Swap Detection System **May 2026-Present**

- Develop a Pre-login feature that enhances banking infrastructure and Cryptocurrency platform security by analyzing user behavior and contextual risk signals before login, detecting potential ATO and triggering protective actions only when suspicious activity is identified.

Smart Cyber Physical Wick Hydroponic System **2024**

- Engineered a secure Cyber-Physical System (CPS) using Arduino Uno and ESP8266, implementing remote control via the Blynk platform.

EDUCATION

Prince Sultan University | Riyadh, Saudi Arabia **2025**
BS in Information Systems – CYS

- **Relevant Coursework:** Penetration Testing, Ethical Hacking, Cyber-Physical System Security.

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- **AWS Cloud Practitioner Essential** (June 2026)
- **TryHackMe Jr Penetration Tester** (May - present)
- **Tuwaiq Academy Cybercrime and Network Forensics** (July 2025)
- **CompTIA Security+** (November 2024)
- **Linux Fundamentals** – Coursera (2024)
